Pope Leo Commends Him for Thoughtfullness.

Rome, Oct. 15 .- In the course of his audnce with the pope, today, Archbishoy Guidi was asked for his opinion of the mportance of his work in the Philip pines, and the length of time it would require for its accomplishment. The archbishop replied that he entire church organization must be remodeled, the clergy reformed, new dioceses created, bishops appointed and a synod formed, and that is presence in the islands would be re-uired for not less than four or five years. The pope then asked his visitor if he had met Governor Taft when the latter was in Rome. The archbishop answered that he had only seen the governor of the Philippines, and as he then had heard himself mentioned for the first time as the probable apostolic delegate in the probable apostolic delegate islands, he had refused to meet Governor Taft, in order to make sure that he would not be prejudiced in the Philippine question. To avoid meeting the governor he had left Rome on the pretext of taking the waters at Montecati. The pope complimented Archbishop Guldi and said his prudence was another proof that the choice of the vatican had fallen upon a man of rare diplomatic tact. He declared that Archbishop Guidi would find Governor Taft a worthy partner.

### FOOTBALL GAMERS

New York, Oct. 15.—Columbia played surprisingly good foot ball here today when her eleven soundly trounced Swarthmore by the score of 24 to 6. Columbia went into the field expecting a hard game.
